2020 OTN SYMPOSIUM SPONSORSHIP PACKAGE
HALIFAX, NOVA SCOTIA
JUNE 2-5, 2020
Since 2008, OTN has been creating a unique global research, infrastructure and data management platform that tightly integrates biological, oceanographic and social sciences; promotes technological innovation; and fosters collaborative partnerships across sectors and around the world.

OTN and its partners are tracking more than 230 species, using 1800 receivers in key ocean and inland waters around the globe. The Symposium brings together researchers to collaborate, develop strategies and seek new opportunities for the sustainable management of aquatic animals in a changing ocean environment.

By sponsoring the 2020 OTN Symposium, you will have the opportunity to promote your organization to a global network of researchers and industry partners while supporting the next generation of leaders in aquatic telemetry. Your support will contribute to activities and outputs centred around three key themes:

**Integrating Indigenous, local and western knowledge systems**
- Collaboration and partnerships
- Lessons learned
- Opportunities for capacity building

**Knowledge mobilization**
- Knowledge mobilization and co-production
- Manager and decision maker perspectives
- Science communication

**Science and technology**
- Discovery science
- Technological innovation and partnerships
